In addition to members of the Editorial Board, the following scientific referees contributed generously of their knowledge, expertise, and time to review and to evaluate the suitability of typescripts submitted for publication to THE AMERICAN JOURNAL OF OPHTHALMOLOGY between November 1, 1990, and October 31, 1991. The Editorial Board is ever mindful of their generous contributions to the integrity and accuracy of The Journal. If your path crosses that of one of these referees, express your appreciation.

SUBJECT INDEX

NOTE: Abstract Index follows Author Index

A

Abscess

Hemianopsia from occipital lobe abscess after dental care, 689

Acanthamoeba sp.

Concurrent chlamydial and *Acanthamoeba* keratoconjunctivitis (letter), 466

Subepithelial infiltrates in *Acanthamoeba* keratitis, 414

Acquired immunodeficiency syndrome

Cytomegalovirus retinopathy as the initial manifestation of the acquired immunodeficiency syndrome, 243

Human immunodeficiency virus disease epidemiology and nosocomial infection, 335

A multicenter study of *Pneumocystis* choroidopathy, 15

Repair of retinal detachment caused by cytomegalovirus retinitis in patients with the acquired immunodeficiency syndrome, 235

Varicella-zoster virus retinitis in patients with the acquired immunodeficiency syndrome, 119

Acute retinal necrosis syndrome

Intrathecal antibody production against viruses of the herpesvirus family in acute retinal necrosis syndrome, 76

Aцикловир

Decrease in the risk of bilateral acute retinal necrosis by acyclovir therapy, 250

Adenoma

Ultrastructural and immunohistochemical features of coronal adenomas, 34

Aging

Pathologic features of surgically excised subretinal neovascular membranes in age-related macular degeneration, 647

Allergy

Sneezing as an early indicator of allergy to fluorescein dye (letter), 601

Aminocaproic acid

Secondary hemorrhage in traumatic hyphema, 507

Anesthesia

Central retinal artery occlusion in a child after general anesthesia (letter), 91

Inferior rectus muscle palsy after retrobulbar anesthesia for cataract surgery (letter), 209

Angiod streaks

Disk drusen and angiod streaks in pseudoxanthoma elasticum, 166

Anterior chamber

Anterior chamber aspirate cultures after uncomplicated cataract surgery, 278

Antibiotic drugs

Mixing fortified antibiotic eyedrops (letter), 459

Mixing fortified antibiotic eyedrops, 450; correction, 754

Antibody

Analysis of local antibody production in the vitreous humor of patients with severe uveitis, 147

Antibody indications of secondary and superimposed retinal hypersensitivity in retinitis pigmentosa, 132

Antigen

Anterior uveitis and hypopyon, 317

Aphakia

Improvement in visual acuity in chronic aphakic and pseudophakic cystoid macular edema after treatment with topical 0.5% ketorolac tromethamine, 514

Aqueous humor

A clinical trial of metipranolol, a noncardioselective beta-adrenergic antagonist, in ocular hypertension, 302

Artery

Central retinal artery occlusion in a child after general anesthesia (letter), 91

Congenital arteriovenous communications and the development of two types of leaking retinal macroaneurysms, 31

Astigmatism

Corneal topography for selective suture removal after penetrating keratoplasty, 657

Developing entry criteria for studies of severe post-keratoplasty astigmatism, 666

Atrophy

Correlation of the blind spot size to the area of the optic disk and parapapillary atrophy (correspondence), 609

B

B-scan

B-scan ultrasonography of eyes containing intravitreal gas, 272

Babesiosis

Retinal nerve fiber layer infarct in a patient with babesiosis (letter), 597

Bacteria

Antibacterial effectiveness of ciprofloxacin 0.3% ophthalmic solution in the treatment of bacterial conjunctivitis, 295

Clinical evaluation of ciprofloxacin 0.3% ophthalmic solution for treatment of bacterial keratitis, 345

- The comparative in vitro activity of ofloxacin and selected ophthalmic antimicrobial agents against ocular bacterial isolates, 108:380; correction, 478
- Current therapy for bacterial keratitis and bacterial conjunctivitis, 10S
- Insights from experimental data on ciprofloxacin in the treatment of bacterial keratitis and ocular infections, 25S
- Microbiologic aspects of fluoroquinolones, 15S
- A review of bacterial keratitis and bacterial conjunctivitis, 2S
- The role of ciprofloxacin in the antibacterial therapy of bacterial keratitis and bacterial conjunctivitis. Preface, 1S
- The role of ciprofloxacin in the antibacterial therapy of bacterial keratitis and bacterial conjunctivitis. Conclusion, 48S
- Beta-blocker**
- A clinical trial of metipranolol, a noncardioselective beta-adrenergic antagonist, in ocular hypertension, 302
- Evaluation of once-daily levobunolol 0.25% and timolol 0.25% therapy for increased intraocular pressure, 56
- Betaxolol**
- Influence of betaxolol and timolol on the visual fields of patients with glaucoma, 678
- Biomicroscopy**
- A comparison of three contact-lens biomicroscopy coupling solutions (letter), 732
- Biopsy**
- Tuberculous choroiditis diagnosed by chorioretinal endobiopsy (letter), 460
- Bleb**
- Spontaneous filtration blebs in a patient with microspherophakia (letter), 350
- Blepharoptosis**
- Isolated orbital sarcoidosis as a cause for blepharoptosis (letter), 739

- Capsulotomy**
Cystoid macular edema, retinal detachment, and glaucoma after Nd:YAG laser posterior capsulotomy, 373
- Carbohydrate-deficient glycoprotein syndrome**
Full-field electroretinograms in patients with the carbohydrate-deficient glycoprotein syndrome, 83
- Carotid**
Echographic diagnosis of dural-carotid cavernous sinus fistulas (correspondence), 740
- Caruncle**
Metastatic carcinoid tumor diagnosis from a caruncular mass (letter), 470
- Cataract**
Anterior chamber aspirate cultures after uncomplicated cataract surgery, 278
The elastic properties of the lens capsule in capsulorhexis (correspondence), 354
Glass-slide vitrectomy for use by the cataract surgeon (letter), 100
Inferior rectus muscle palsy after retrobulbar anesthesia for cataract surgery (letter), 209
Juvenile cataract associated with chronic diarrhea in pediatric cerebrotendinous xanthomatosis (letter), 606
Lens capsule and epithelium in age-related cataract, 283
Management of the dislocated crystalline lens with a perfluorocarbon liquid, 401
- Cerebrotendinous xanthomatosis**
Juvenile cataract associated with chronic diarrhea in pediatric cerebrotendinous xanthomatosis (letter), 606
- Chemosis**
Chemosis associated with Whipple's disease (letter), 217
- Children**
Central retinal artery occlusion in a child after general anesthesia (letter), 91
Juvenile cataract associated with chronic diarrhea in pediatric cerebrotendinous xanthomatosis (letter), 606
Marked intraocular pressure response to instillation of corticosteroids in children, 450
Scleritis and Wegener's granulomatosis in children (correspondence), 358
- Chlamydia sp.**
Concurrent chlamydial and *Acanthamoeba* keratoconjunctivitis (letter), 466
- Cholesterol**
The effects of lipid lowering on diabetic retinopathy, 385
- Choroid**
Cytopathologic diagnosis of benign lesions simulating choroidal melanomas, 70
Epstein-Barr virus antibodies in multifocal choroiditis and panuveitis, 410
- Choroiditis**
Epstein-Barr virus antibodies in multifocal choroiditis and panuveitis, 410
Tuberculous choroiditis diagnosed by chorioretinal endobiopsy (letter), 460
- Choroidopathy**
A multicenter study of *Pneumocystis* choroidopathy, 15
- Ciprofloxacin**
Antibacterial effectiveness of ciprofloxacin 0.3% ophthalmic solution in the treatment of bacterial conjunctivitis, 29S
Clinical evaluation of ciprofloxacin 0.3% ophthalmic solution for treatment of bacterial keratitis, 34S
Current therapy for bacterial keratitis and bacterial conjunctivitis, 10S
Insights from experimental data on ciprofloxacin in the treatment of bacterial keratitis and ocular infections, 25S
Microbiologic aspects of fluoroquinolones, 15S
The role of ciprofloxacin in the antibacterial therapy of bacterial keratitis and bacterial conjunctivitis. Preface, 1S
The role of ciprofloxacin in the antibacterial therapy of bacterial keratitis and bacterial conjunctivitis. Conclusion, 48S
- Cirrhosis**
Hepatic cirrhosis as a cause of eyelid retraction (letter), 94
- Collagen shield**
Collagen shields, 587
- Coloboma**
Spontaneous reattachment of a total retinal detachment in an infant with microphthalmos and an optic nerve coloboma (letter), 347

Color vision

Stiles-Crawford effect and color matching in Stargardt's disease (letter), 216

Comamonas sp.

Ocular infections associated with *Comamonas acidovorans*, 46

Computed tomography

Evaluation of dacryocystorhinostomy failure with computed tomography and computed tomographic dacryocystography, 431

Computer-image analysis

Regional and long-term variability of fundus measurements made with computer-image analysis, 171

Cone

Retinal function and rhodopsin levels in autosomal dominant retinitis pigmentosa with rhodopsin mutations, 256

Conjunctiva

Acute conjunctivokeratouveitis caused by latex from the pencil tree (letter), 464

Bilateral follicular conjunctivitis as a manifestation of Lyme disease (letter), 96

Conjunctival impression cytology in patients with glaucoma using long-term topical medication, 297

Conjunctival lymphocytic nodule associated with the Epstein-Barr virus, 567

Human papillomavirus type 16 DNA inocular and cervical swabs of women with genital tract condylomata, 61

Microbiologic aspects of fluoroquinolones, 15S

Response of reactivated ligneous conjunctivitis to topical cyclosporine (letter), 95

A sibship with unusual anomalies of the eye and skeleton (Michels' syndrome), 572

Conjunctivitis

Antibacterial effectiveness of ciprofloxacin 0.3% ophthalmic solution in the treatment of bacterial conjunctivitis, 29S

Canalicular obliteration from toxic epidermal necrolysis (letter), 469

Current therapy for bacterial keratitis and bacterial conjunctivitis, 10S

Parinaud's oculoglandular syndrome simulating lymphoma (letter), 344

A review of bacterial keratitis and bacterial conjunctivitis, 2S

The role of ciprofloxacin in the antibacterial therapy of bacterial keratitis and bacterial conjunctivitis. Preface, 1S

The role of ciprofloxacin in the antibacterial therapy of bacterial keratitis and bacterial conjunctivitis. Conclusion, 48S

Conjunctivodacryocystorhinostomy

Problems associated with conjunctivodacryocystorhinostomy, 502

Contact lens

The career impact of keratoconus on air force aviators, 557

Concurrent chlamydial and *Acanthamoeba* keratoconjunctivitis (letter), 466

Fitting of aspheric high gas-permeable rigid contact lenses to scarred corneas, 191

Ocular infections associated with *Comamonas acidovorans*, 46

Subepithelial infiltrates in *Acanthamoeba* keratitis, 414

Transscleral Nd:YAG laser cyclophotocoagulation with a contact lens, 671

Contrast sensitivity

Isolating the effects of primary open-angle glaucoma on the contrast sensitivity function, 308

Cornea

Antibacterial effectiveness of ciprofloxacin 0.3% ophthalmic solution in the treatment of bacterial conjunctivitis, 29S

Clinical evaluation of ciprofloxacin 0.3% ophthalmic solution for treatment of bacterial keratitis, 34S

Cold-induced corneal edema in patients with trigeminal nerve dysfunction, 548

Collagen shields, 587

Corneal autografts for external knots in transsclerally sutured posterior chamber lenses (letter), 353

Corneal topography for selective suture removal after penetrating keratoplasty, 657

Current therapy for bacterial keratitis and bacterial conjunctivitis, 10S

Demonstration of herpes simplex virus DNA in idiopathic corneal endotheliopathy, 419

The effect of corneal hypesthesia on the duration of proparacaine anesthetic eyedrops, 326

The effect of topical administration of indometacin on symptoms in corneal scars and edema, 186

The effects of denatured sodium hyaluronate on the corneal endothelium in cats, 424

Extreme corneal flattening after radial keratotomy (letter), 738

Fitting of aspheric high gas-permeable rigid contact lenses to scarred corneas, 191

Insights from experimental data on ciprofloxacin in the treatment of bacterial keratitis and ocular infections, 25S

Measurement of the radius of corneal curvature with the Maloney surgical keratometer (letter), 211

Microbiologic aspects of fluoroquinolones, 15S

Residual intrascleral and intraretinal melanoma: a concern with lamellar scleruvectomy for uveal melanoma, 590

A review of bacterial keratitis and bacterial conjunctivitis, 2S

- The role of ciprofloxacin in the antibacterial therapy of bacterial keratitis and bacterial conjunctivitis.** Preface, 1S
The role of ciprofloxacin in the antibacterial therapy of bacterial keratitis and bacterial conjunctivitis. Conclusion, 48S
- A sibship with unusual anomalies of the eye and skeleton (Michels' syndrome),** 572
- Subepithelial infiltrates in *Acanthamoeba* keratitis,** 414
- Corona**
 Ultrastructural and immunohistochemical features of coronal adenomas, 34

- Mixing fortified antibiotic eyedrops, 450; correction, 754
- Therapeutic ultrasound for the treatment of glaucoma, 111:327; correction, 105
- Corticosteroid**
 Corticosteroid-induced toxic optic neuropathy (letter), 605
- Marked intraocular pressure response to instillation of corticosteroids in children, 450
- Cyclophotocoagulation**
 Transscleral Nd:YAG laser cyclophotocoagulation with a contact lens, 671
- Cyclosporine**
 Randomized, double-masked study of cyclosporine compared to prednisolone in the treatment of endogenous uveitis, 138
- Response of reactivated ligneous conjunctivitis to topical cyclosporine (letter), 95
- Cystoid macular edema**
 Cystoid macular edema, retinal detachment, and glaucoma after Nd:YAG laser posterior capsulotomy, 373
- Improvement in visual acuity in chronic aphakic and pseudophakic cystoid macular edema after treatment with topical 0.5% ketorolac tromethamine, 514
- Cytomegalovirus retinitis**
 Repair of retinal detachment caused by cytomegalovirus retinitis in patients with the acquired immunodeficiency syndrome, 235
- Cytomegalovirus retinopathy**
 Cytomegalovirus retinopathy as the initial manifestation of the acquired immunodeficiency syndrome, 243
- D**
- Dacryocystitis**
 Bone erosion in nasolacrimal duct obstruction (letter), 215

U**Ultrasonography**

B-scan ultrasonography of eyes containing intravitreal gas, 272

Therapeutic ultrasound for the treatment of glaucoma, 111:327; correction, 105

Uvea

Acute conjunctivokerouveitis caused by latex from the pencil tree (letter), 464

Residual intrascleral and intraretinal melanoma: a concern with lamellar sclerouvectomy for uveal melanoma, 590

Ultrasonic tissue characterization of uveal melanoma and prediction of patient survival after enucleation and brachytherapy, 682

Uveitis

Analysis of local antibody production in the vitreous humor of patients with severe uveitis, 147

Anterior uveitis and hypopyon, 317

Bilateral nongranulomatous uveitis and a poststreptococcal syndrome (letter), 595

- Detection of antibodies against *Borrelia burgdorferi* in patients with uveitis, 23
Epstein-Barr virus antibodies in multifocal choroiditis and panuveitis, 410
Granulomatous uveitis and quinidine hypersensitivity (letter), 461
Magnetic resonance imaging in a patient with herpes zoster keratouveitis and contralateral acute retinal necrosis (letter), 735
Prevalence of Lyme disease among patients with uveitis (letter), 462
Randomized, double-masked study of cyclosporine compared to prednisolone in the treatment of endogenous uveitis, 138
Uveitis precipitated by nonpenetrating ocular trauma, 392

V**Varicella**

- Varicella-zoster virus retinitis in patients with the acquired immunodeficiency syndrome, 119

Vein

- Congenital arteriovenous communications and the development of two types of leaking retinal macroaneurysms, 31

Visual acuity

- Improvement in visual acuity in chronic aphakic and pseudophakic cystoid macular edema after treatment with topical 0.5% ketorolac tromethamine, 514

- Sudden improvement of visual acuity after a retinal pigment epithelium tear (letter), 598

Visual field

- Influence of betaxolol and timolol on the visual fields of patients with glaucoma, 678

Visual-evoked potential

- Visual-evoked cortical potentials in dissociated vertical deviation, 714

Vitrectomy

- A disposable iris retractor for vitrectomy (letter), 731

- Glass-slide vitrectomy for use by the cataract surgeon (letter), 100

- Repair of retinal detachment caused by cytomegalovirus retinitis in patients with the acquired immunodeficiency syndrome, 235

Vitreous

- Analysis of local antibody production in the vitreous humor of patients with severe uveitis, 147

- B-scan ultrasonography of eyes containing intravitreal gas, 272

- Anesthesia**
Comparison of retrobulbar and periocular injections of lignocaine by computerised tomography, 615
A double-masked evaluation of lignocaine-prilocaine cream (EMLA) used to alleviate the pain of retrobulbar injection, 225
- Angiography**
Differences in the use of procedures between women and men hospitalized for coronary heart disease, 751
- Aspirin**
A prospective study of aspirin use and primary prevention of cardiovascular disease in women, 617
- Astigmatism**
Astigmatism after small incision cataract surgery. A prospective, randomized, multicenter comparison of 4- and 6.5-mm incisions, 365
Survey of the optical quality of intraocular lens implants, 225
- Atherosclerosis**
Serum lipids and lipoproteins are less powerful predictors of extracranial carotid artery atherosclerosis than are cigarette smoking and hypertension, 230
- Atropine**
Visual hallucinations on eye closure associated with atropine toxicity. A neurological analysis and comparison with other visual hallucinations, 368

B

- Biomicroscopy**
Clinical use of ultrasound biomicroscopy, 226
- Borrelia sp.**
Frequency and clinical significance of Lyme seropositivity in patients with isolated optic neuritis, 231

Botulinum toxin

- Early botulinum toxin treatment of acute sixth nerve palsy, 230

C

- Capsulotomy**
Investigations on diathermy for anterior capsulotomy, 615

- Children**
The development of cataract in children as a late side-effect of bone marrow transplantation, 615
Effect of very low birth weight and subnormal head size on cognitive abilities at school age, 748
Eyedrop instillation for reluctant children, 616
- Cholesterol**
The hypocholesterolemic effects of β -glucan in oatmeal and oat bran. A dose-controlled study, 367
A prospective study of cholesterol, apolipoproteins, and the risk of myocardial infarction, 751
- Cicatricial pemphigoid**
Ocular cicatricial pemphigoid occurring as a sequela of Stevens-Johnson syndrome, 753

- Cluster headache**
Treatment of acute cluster headache with sumatriptan, 749
- Color vision**
Deficiencies in human neonates' color vision: photoreceptor and neural explanations, 748
- Cone**
Nyctalopia with normal rod function: A suppression of cones by rods, 227
- Contact lens**
The incidence of ulcerative keratitis among aphakic contact lens wearers in New England, 226
- Cornea**
Clinical use of the 193-nm excimer laser in the treatment of corneal scars, 364
Corneal deposits associated with flecainide, 485
Detection of herpes simplex virus thymidine kinase and latency-associated transcript gene sequences in human herpetic corneas by polymerase chain reaction amplification, 484
Visual disturbances in man as a result of experimental and occupational exposure to dimethylethylamine, 114
- Coronary heart disease**
Differences in the use of procedures between women and men hospitalized for coronary heart disease, 751
Sex differences in the management of coronary artery disease, 751
- Corticosteroid**
Use of cyclosporin in the management of steroid dependent non-necrotising scleritis, 485
- Cyclosporine**
Use of cyclosporin in the management of steroid dependent non-necrotising scleritis, 485
- D**
- Deviation**
Prognostic significance of conjugate eye deviation in stroke patients, 368
- Dexamethasone**
